Rocket® Rocket IPC Wide Bore Drainage Line Sterile for single use, in cartons 10 lines	**R54410-WB-DL**
Rocket® IPC Replacement Valve Kit Sterile for single use, in individual cartons	**R54410-00-VV**

Rocket® IPC offers an alternative long term method of managing pleural effusions and malignant ascites, allowing patients to be managed in the comfort of home which offers significant advantages:

- Early discharge
- Minimized repeat admission
- Improved quality of life
- Improved control over discomfort and breathlessness
- Reduced cost

The system features:
UNIQUE FLOW CONTROL:

- Gives patient or carer total control over fluid flow, significantly reducing discomfort during drainage.
- Reduces risk of accidental vacuum release prior to catheter connection.

SAFETY VALVE WITH UNIQUE LOCKING SYSTEM:

- Prevents leakage of air or fluid.
- Prevents accidental disconnection during drainage.
- Prevents accidental loss of valve caps, minimising contamination.
